Life today

Satisfaction with life in general

Base: All Travellers n - 481

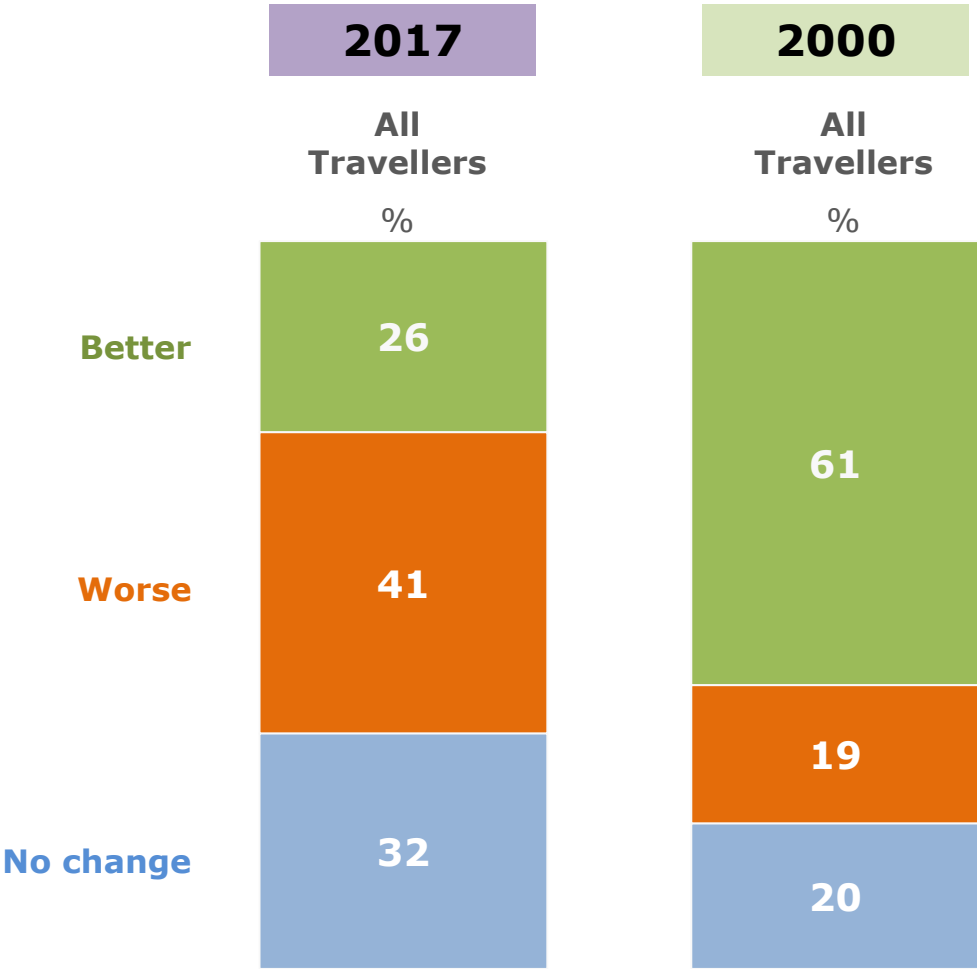

In 2017, just over 60% of the Traveller community classify themselves as being 'Satisfied with life in general in Ireland these days'; in 2000 research, 71% of Travellers were satisfied. The corresponding 'satisfied' figure for the general public in 2017 is 87%.

Q.1 To begin with, are you satisfied or dissatisfied with life in general in Ireland these days?

Conditions for Travellers vs 5-10 years ago

Base: All Travellers n - 481

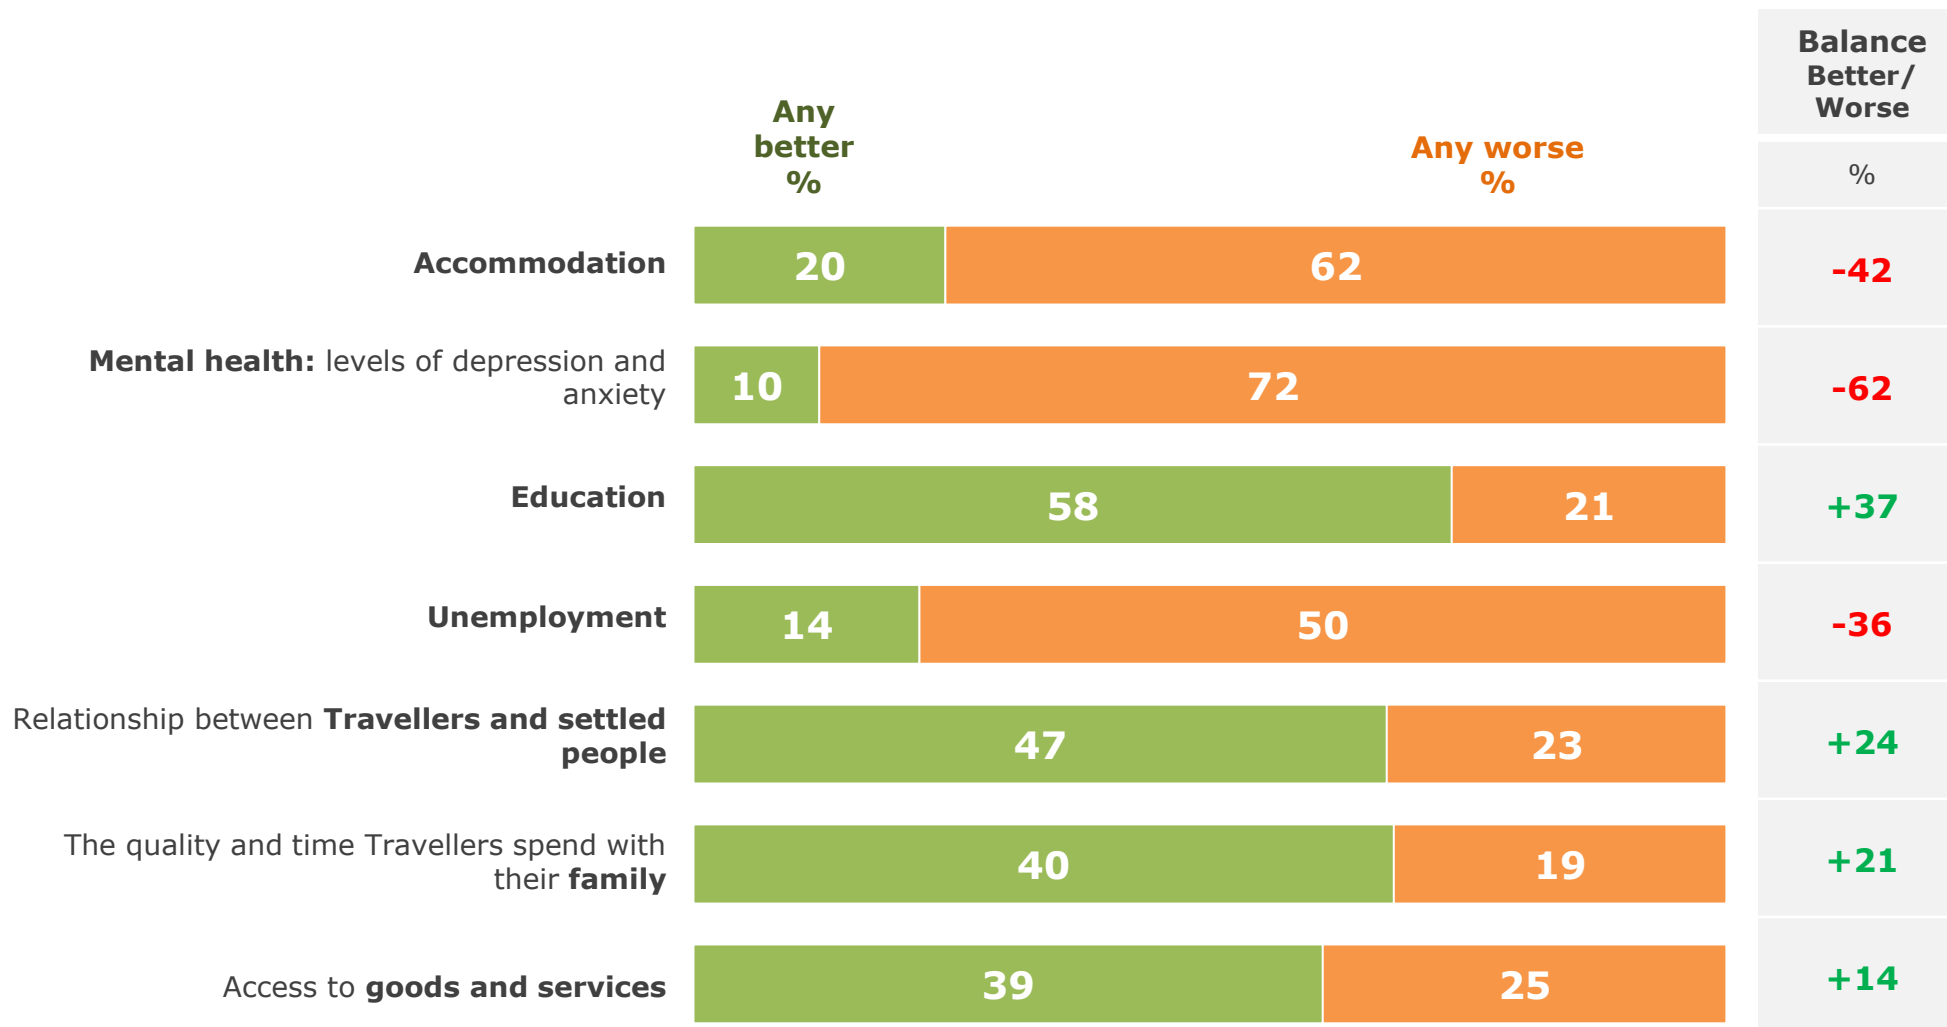

Only 26% of Travellers consider life in general to have got better for Travellers over the last 5-10 years (versus 61% in 2000).

Q.2 Over the last 5-10 years would you say life in general has got better or worse or hasn't changed from the standpoint of Travellers like yourself?

Aspects of life for Travellers vs five years ago

Base: All Travellers n - 481

Mental health, accommodation and unemployment are the aspects of life that are perceived to have declined over the past 5 years.

Summary: Life Today

Training schemes

Base: All Travellers n - 481

Have training schemes resulted in employment

Base: Participation in training scheme n – 307 (66%)

30% of those who have attended a training scheme have gained employment as a result.

Health

Health issues categories

1. Healthy lifestyle & diet factors

- Not eating enough healthy food
- Spending too much time indoors
- Spending too much time on phones, computers or watching TV
- Not taking enough exercise
- Putting on weight

2. Long term physical illness

- Experiencing a chronic health condition like asthma, diabetes, cardiovascular disease, or cancer

3. Drugs & alcohol consumption

- Smoking
- Alcohol consumption
- Experimenting with drugs
- Use of prescription drugs bought online

4. Body image factors

- The use of steroids
- The use of tanning injections or tablets
- Body image generally

5. Isolation

- Being alone, not interacting with others
- Not having close friends to talk to and confide in

6. Mental health issues

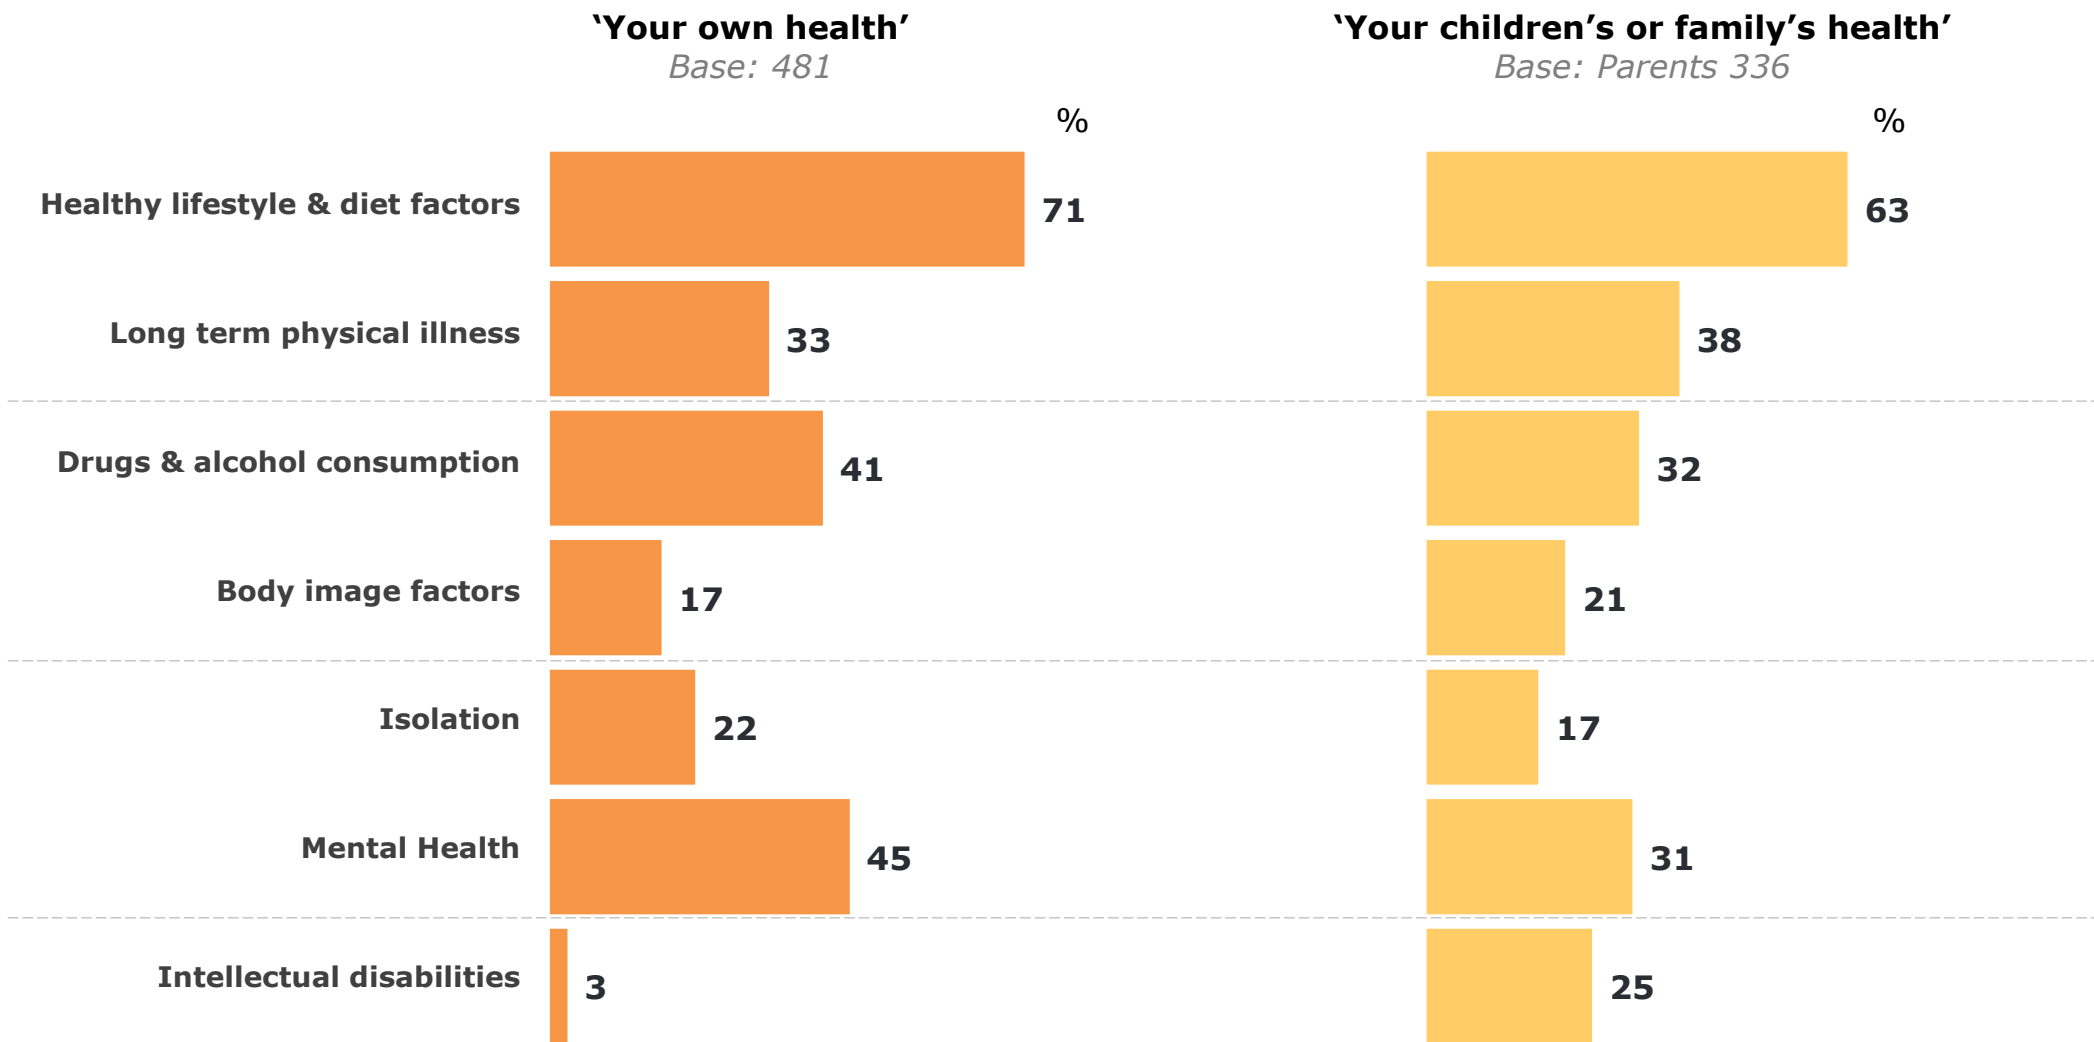

- Anxiety
- Depression
- Over prescription of anti-depressant medication

7. Intellectual disabilities

- Autism
- ADHD Hyperactive Disorder

Health issues categories

Base: All Travellers n - 481

Across a poor overall personal and family health assessment, lifestyle, drugs/alcohol and mental health issues are especially prominent.

Q.11 Which of the following issues are you actively concerned about in relation to your own health?
Q.12 And now thinking of any of your children or family, which of the following issues are you actively concerned about in relation to their health?

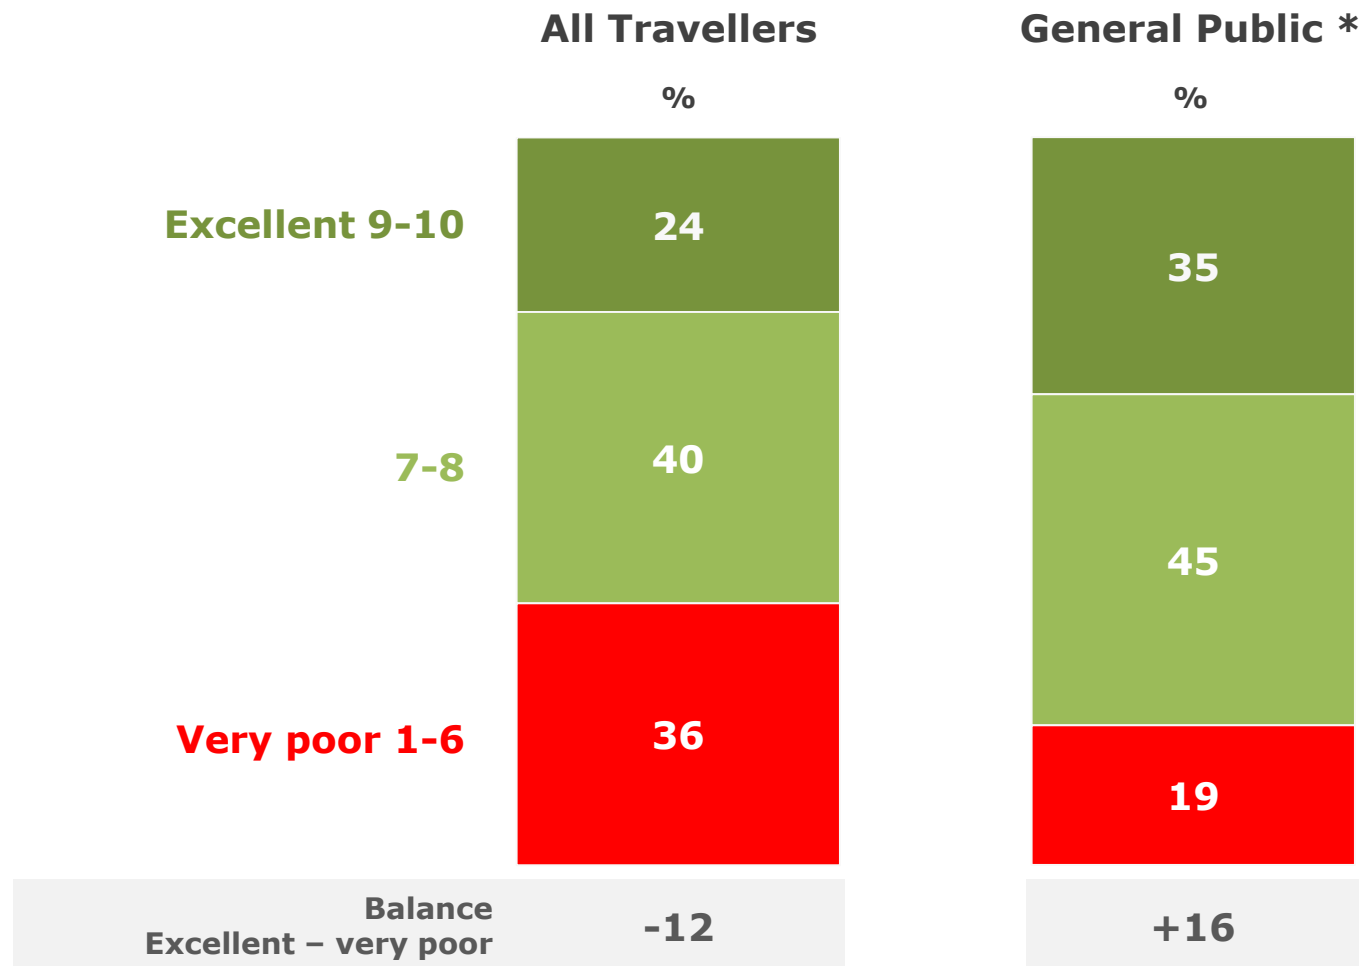

Health issues categories: Your own health

Base: All Travellers n - 481

82% of the total community has been affected by suicide; rises to 90% or more in Dublin and Conn/ Ulster.

Q.14 Suicide is a particular concern in the Traveller Community. Would you mind indicating if you or your family has been directly affected by suicide?

Accommodation

Length of time living in present location

Base: All Travellers n - 481

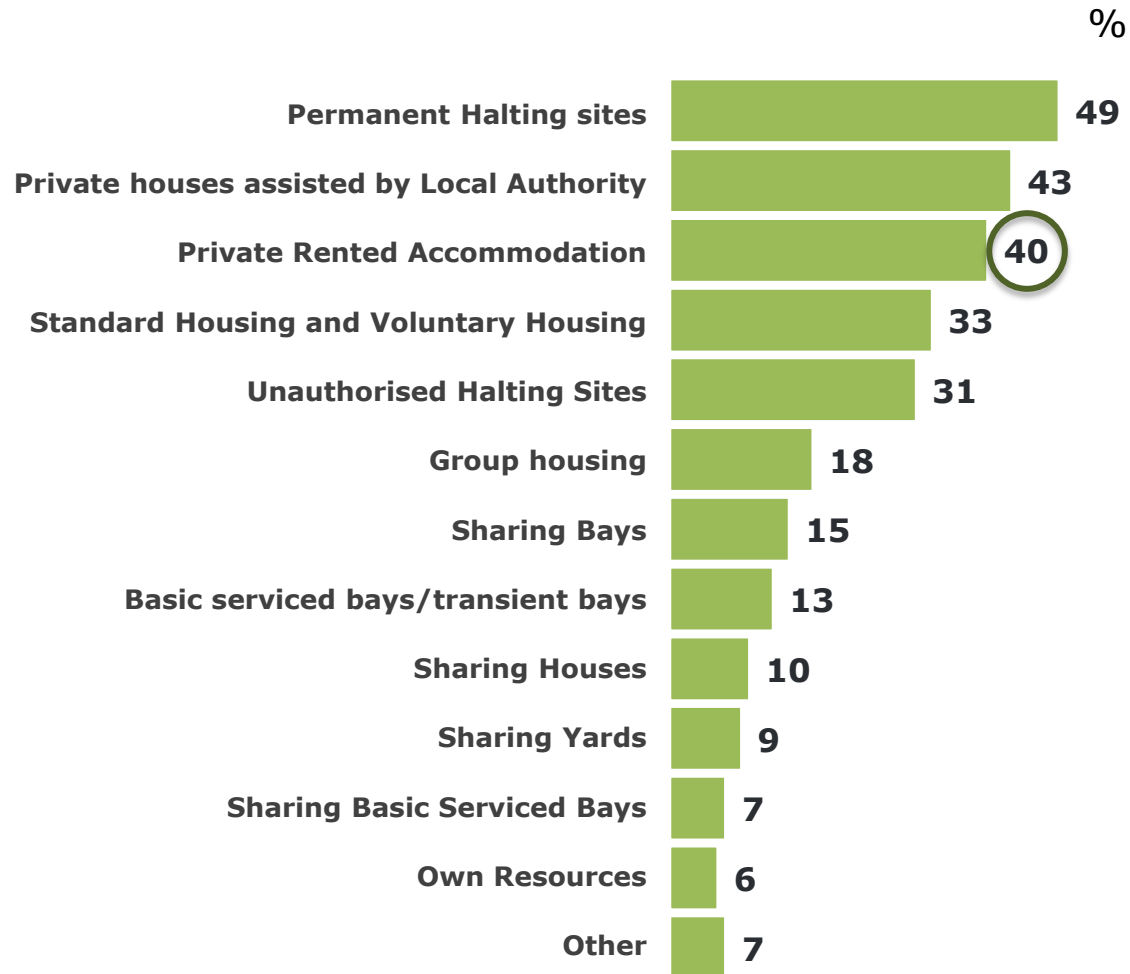

49% of the community indicate they have been living in their present location for longer than 7 years (vs 28% in 2000). Nearly half of those in private rented accommodation have been in their present location for up to 2 years.

Type of accommodation ever lived in

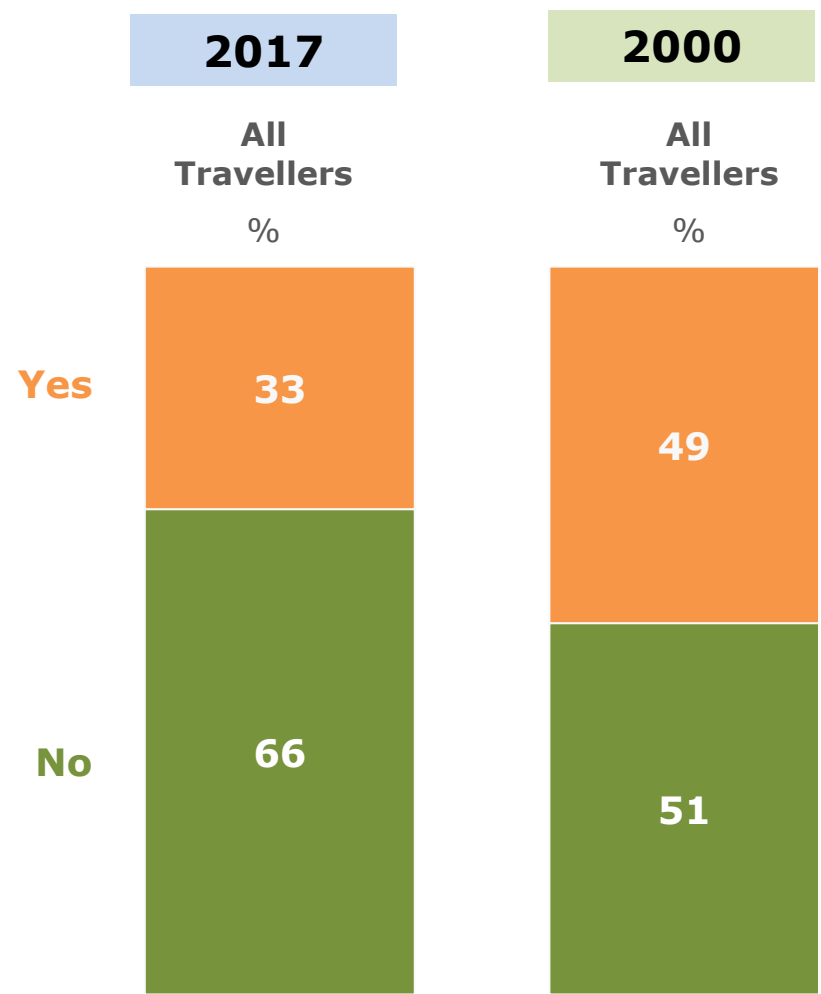

Base: All Travellers n - 481

40% of Travellers have lived in private rented accommodation at some point.

Forced movement from any accommodation

Base: All Travellers n - 481

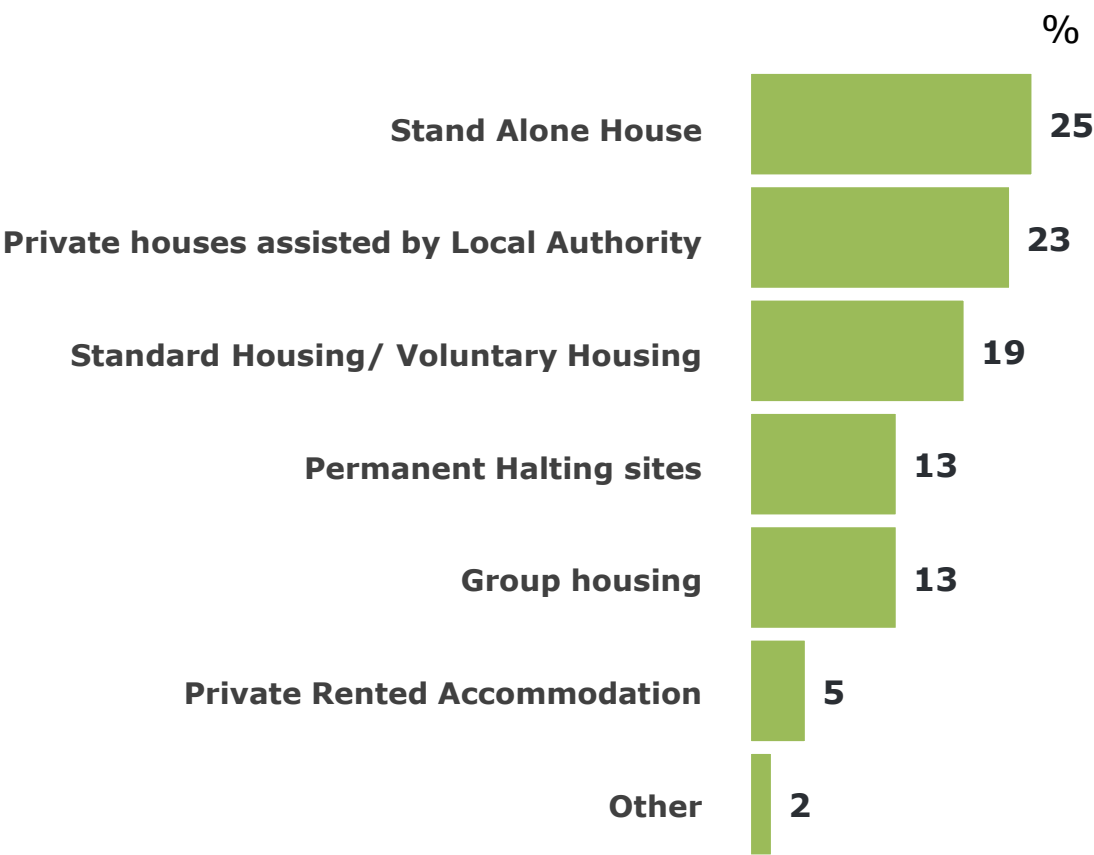

1 in 3 Travellers have been forced to move from their accommodation/area at some point (vs. 49% in 2000). The incidence among those under 24 years is 1 in 5.

Ideal place to live

Base: All Travellers n - 481

48% of Travellers define their ideal place to live as a stand alone house or private house (assisted by LA). Preference is largely consistent by age but exhibits more variation by region and accommodation type.

Ideal place to live

Base: All Travellers n - 481

	Total	Current Accommodation Type				
		Accom L.A.	Unauth- orised Site *	Own Resource*	Private Rent	Share House*
<i>Total</i>	481	312	27	27	86	29

Still Travel	19	10	16	30	18

Q.17 How long have you been living here in this location?
 Q.22a Have you ever been forced to move from your accommodation and/or area, against your will, at any time?
 Q.18 Do you live close to your immediate family (brothers, sisters, mothers, fathers etc.) or do you live in a different area?
 Q.19 How important or not is it to you that you live close to your immediate family?
 Q.25a Have you ever travelled?
 Q.25b Do you still travel or not?

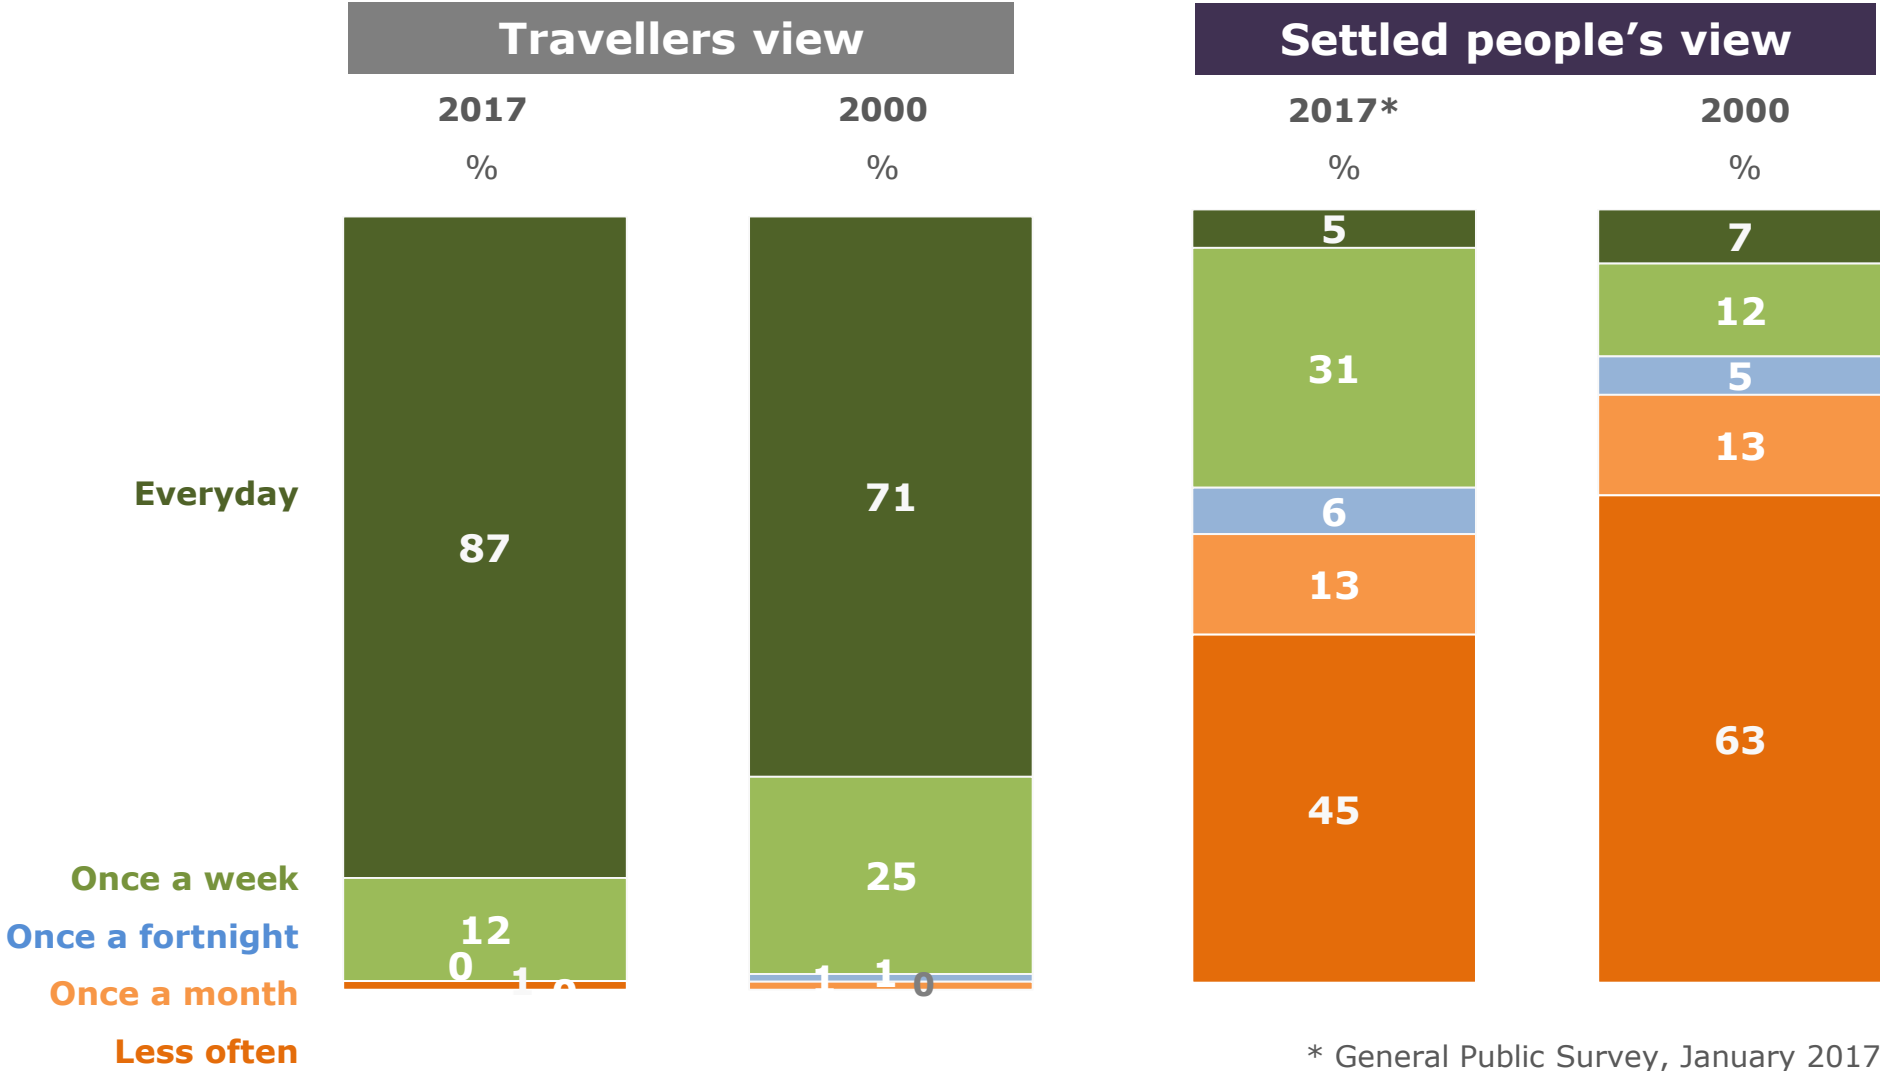

Travellers and the settled community

Frequency of coming into contact with other community

Base: All Travellers n - 481

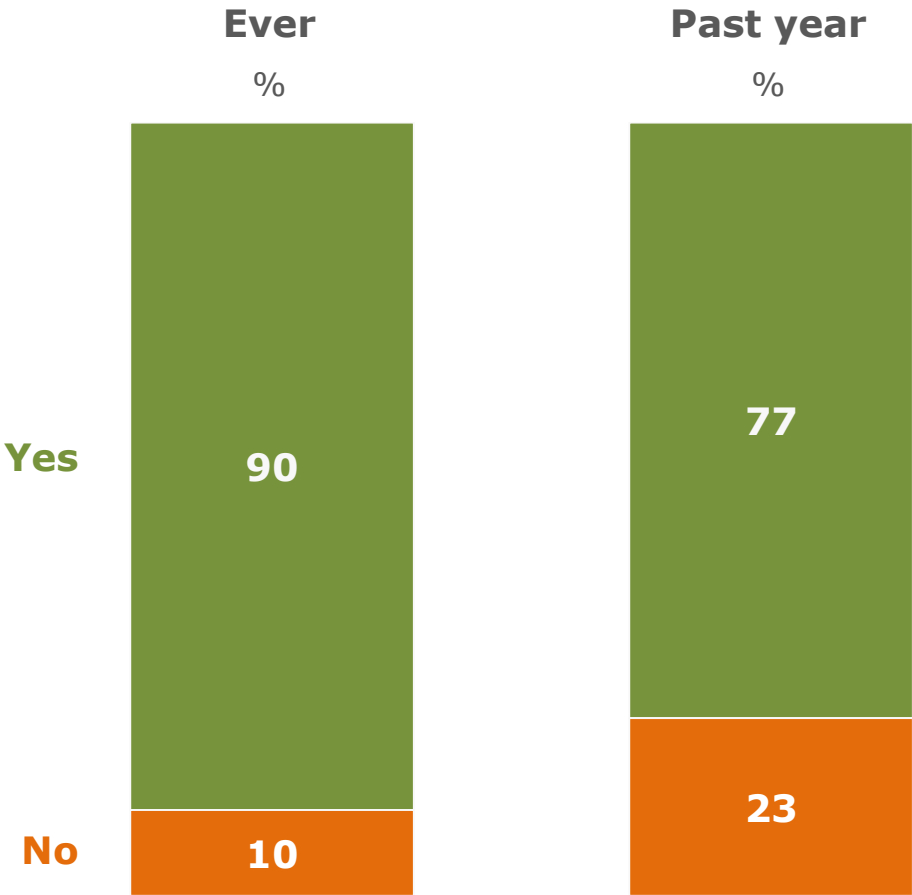

There is a huge difference in perception between the two communities on their level of interaction (just as there was in 2000).

Experienced discrimination

Base: All Travellers n - 481

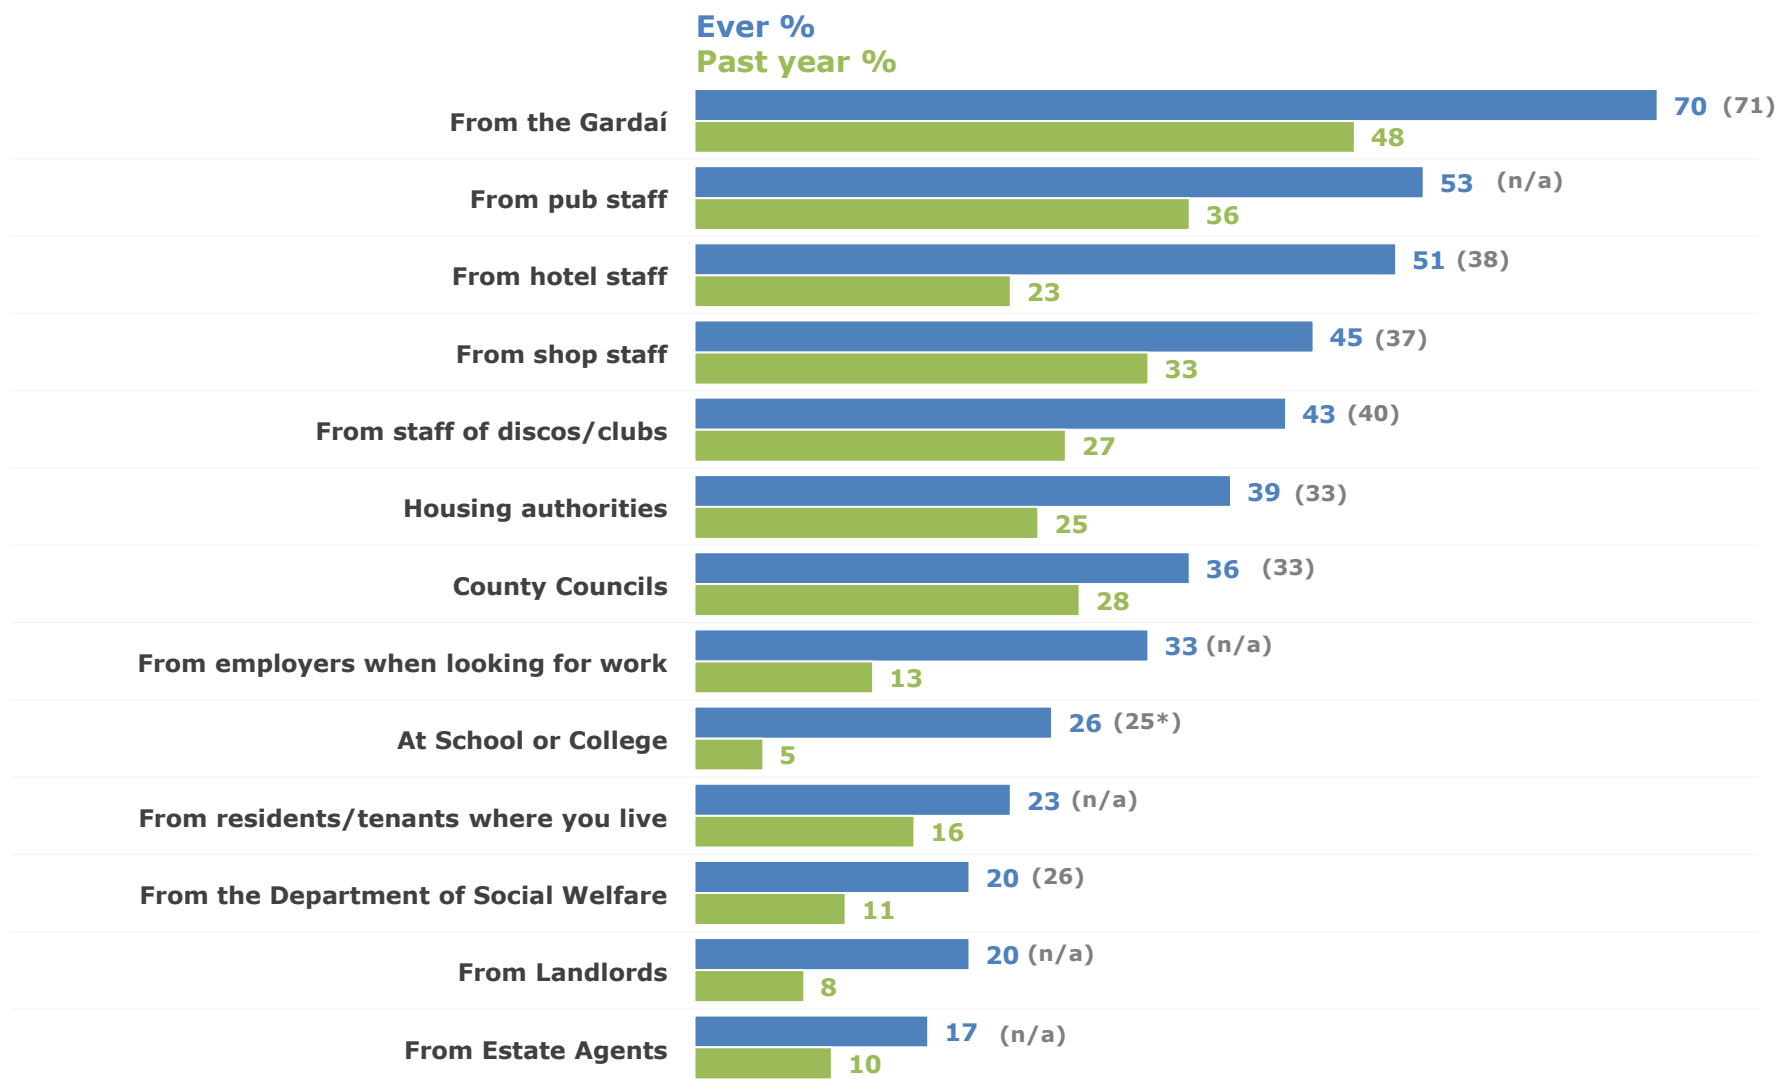

77% of Travellers have experienced discrimination in the 'past year'.

Q.29 Have you yourself ever experienced discrimination from
Q.30 And has that happened in the last year?

Experienced discrimination

Base: All Travellers n - 481

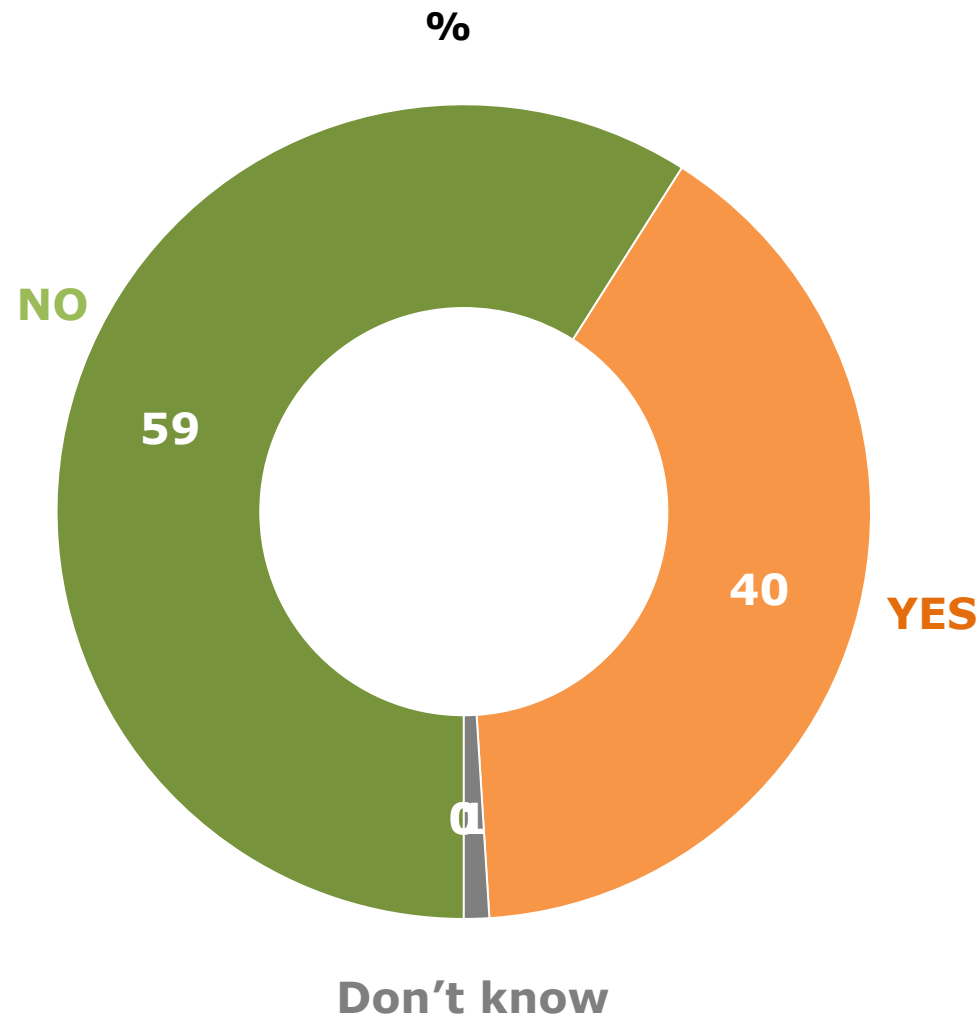

(2000 survey in brackets)

* Slight change in phrasing in 2017

Travellers being bullied in school

Base: All Travellers n – 481

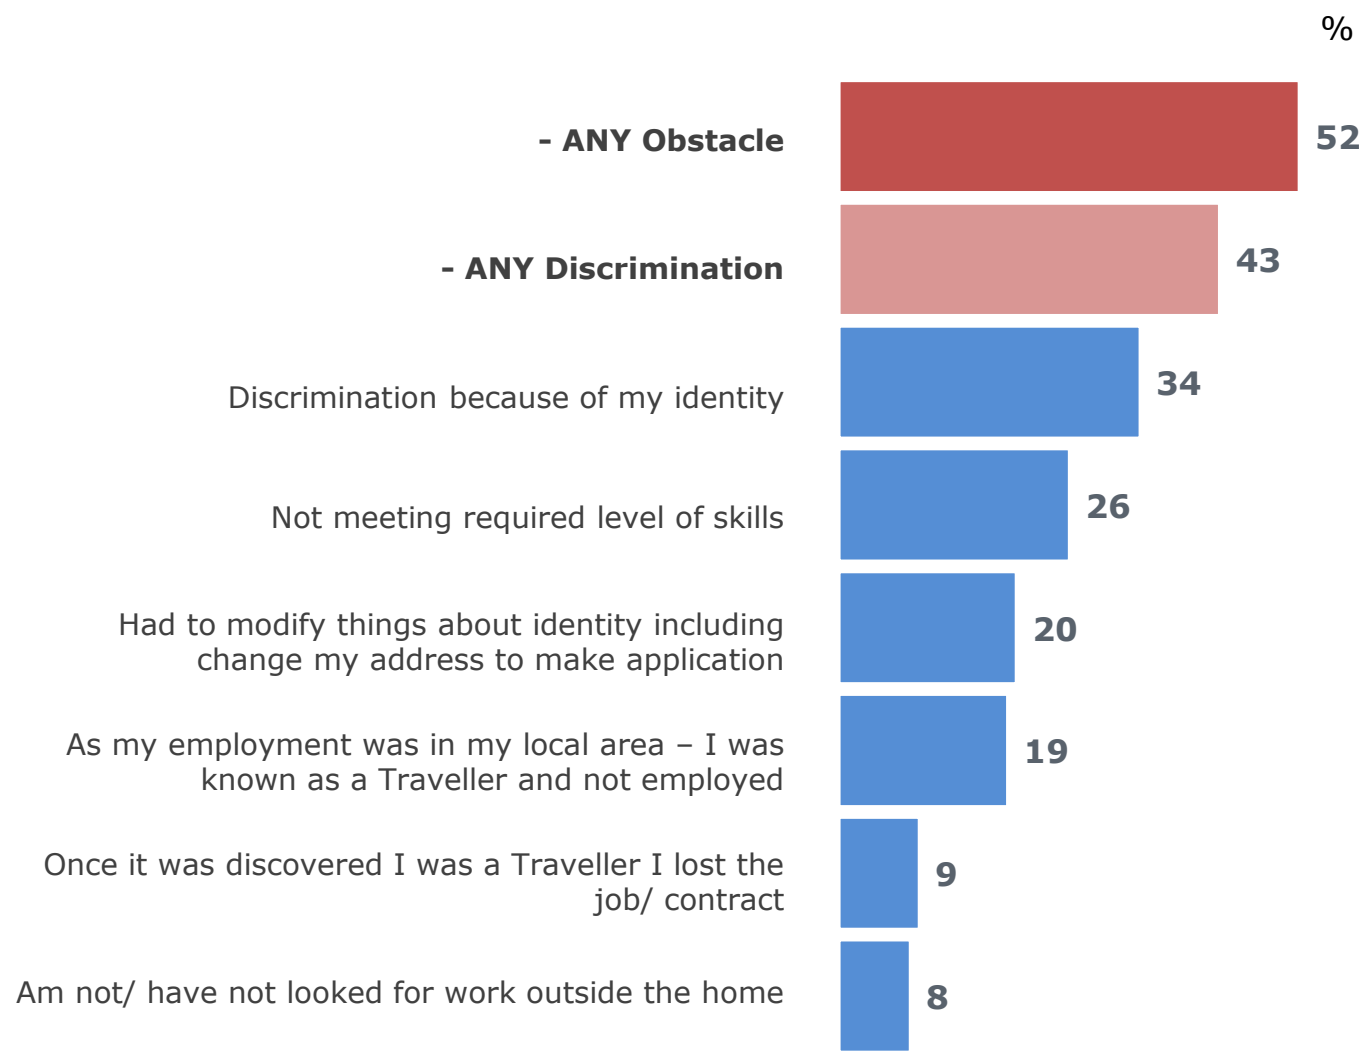

40% of Travellers indicate they or their children have been bullied at school due to their identity.

Q.42 Have you (or your children) been bullied in school because of your/ their identity as a Traveller?

Obstacles encountered in accessing employment

Base: All Travellers n - 481

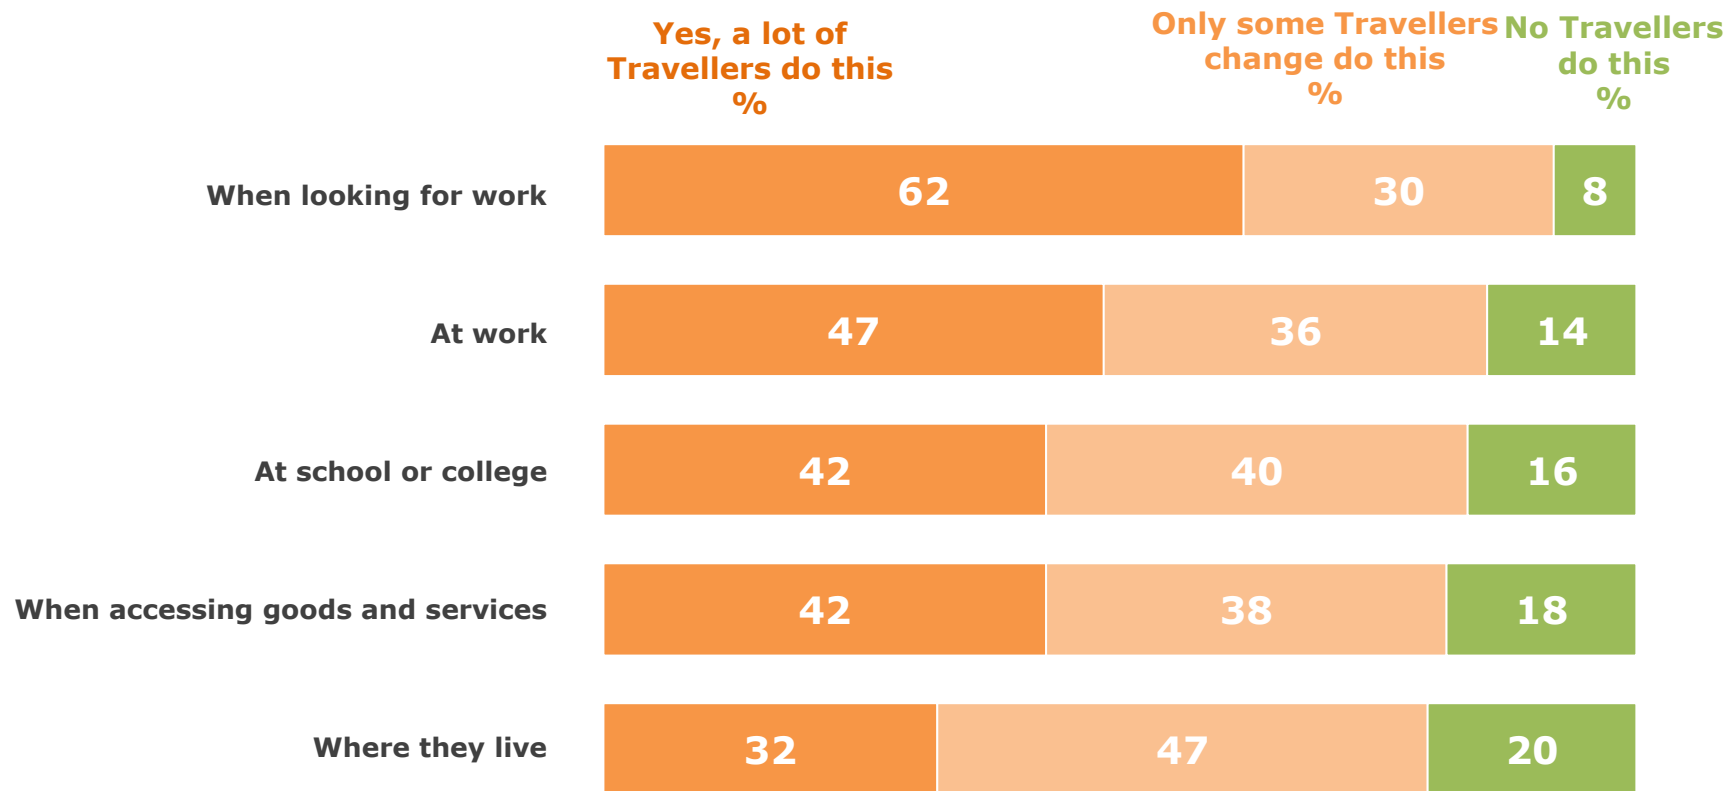

43% of Travellers indicate they have encountered discrimination while accessing employment

Travellers changing behaviour and presentation to fit in more

Base: All Travellers n - 481

Travellers believe the vast majority of the community is adapting their behaviour and the way they present themselves in multiple areas of life to 'fit in more'.

Summary: Travellers & the Settled Community

Base: All Travellers n - 481

	Total	Region			
		Dublin	Rest of Leinster	Munster	Conn/Ulster

Summary & Conclusions

Summary & Conclusions

- In 2017, just over 60% of the Traveller community classify themselves as being 'Satisfied with life in general in Ireland these days'; in the 2000 research, 71% of Travellers were satisfied.
 - Life satisfaction in the Traveller Community appears to decline with age.
 - Only 26% of Travellers consider life in general to have got better for Travellers over the last 5-10 years (versus 61% in 2000).
- Only 24% of Travellers assess their own health as being 'excellent' with 36% assessing it as poor/very poor. Across a poor overall personal and family health assessment, lifestyle, drugs/alcohol and mental health issues are especially prominent.
- Mental health, is a key 'aspect of life' that is perceived to have 'gotten a lot worse' over the past 5 years. Over 90% of Travellers agree that mental health problems are common among the community. The discomfort with discussing mental health issues is common across age groups.
- 82% of the community have been affected by suicide. 44% of those affected by suicide in their immediate family have also experienced suicide in their wider family.
- 77% of Travellers have experienced discrimination in the 'past year'.
- 43% of Travellers indicate they have encountered discrimination while accessing employment.
- 40% of Travellers indicate they or their children have been bullied at school due to their identity.
- Travellers believe the vast majority of the community is adapting their behaviour and the way they present themselves in multiple areas of life to 'fit in more'.

Summary & Conclusions

- 3 in 4 Travellers live close to their immediate family; and consider it very important to do so. Near half (49%) of the community indicate they have been living in their present location for longer than 7 years (vs 28% in 2000)
 - 47% of those in private rented accommodation have been in their present location for up to 2 years.
- 48% of Travellers define their ideal place to live as a stand alone house or private house (assisted by LA). This preference is largely consistent by age but exhibits more variation by region and accommodation type.
 - Only 1 in 10 of the community still travel (versus 1 in 3 in 2000). 54% of those who did travel stopped doing so at least 10 years ago.
- 60% of the community indicate that they are 'not working' – the relevant figure in the 2000 survey was 62%.
- 66% of Travellers have experience of a training scheme and 30% of those have gained employment as a result.
- The average age for finishing school among Travellers under 24 years is under 15 years (vs. 13.7 years for the full community). 39% completed their Inter/Group Cert in the 2017 research (vs 9% in 2000).
- 57% of Travellers feel the community is well supported by the school system; 54% feel Travellers are more supported by the system than 5 years ago.
- Satisfaction with education received is stronger in relation to the community's children and personal satisfaction with education is much stronger among younger Travellers.
- 73% of general public agree that Travellers should receive support to access and progress in education.
